As a global leader in **Regulatory Information Management (RIM) software** for MedTech firms, Rimsys provides an unparalleled solution. The Rimsys Regulatory Information Management Platform digitizes and automates regulatory activities within a single cloud-based platform. This innovative approach empowers regulatory affairs teams to operate with **enhanced efficiency, expedite product launches, and mitigate non-compliance risks effectively.**

Challenges in Rimsys' Business Landscape:

- **Disjointed QA Practices and IT Processes:**

Fragmented QA practices and inefficient IT processes hindered Rimsys' ability to achieve optimal performance and ROI, hampering their advancement in the competitive medical tech industry.

- **Unorganized Test Documentation and Suboptimal Test Automation:**

Challenges with disorganized test documentation and inadequate test automation resulted in prolonged testing cycles and decreased productivity, impeding Rimsys' ability to innovate and maintain a leadership position in the healthcare technology landscape.

- **Stalled Ambitions and Diminished ROI:**

Inefficiencies in Rimsys' operations stalled ambitions for industry prominence and diminished ROI, necessitating a strategic pivot to align with industry benchmarks and streamline operations for catalyzing growth and achieving excellence.

QualiZeal's Strategic & Tactical Solutions:

→ QA Assessment:

Rimsys partnered with QualiZeal for a detailed QA Evaluation, exposing IT inefficiencies. Strategic improvements were prioritized for competitiveness and med-tech prominence.

→ Test Artifact Repository:

QualiZeal's repository optimized Rimsys' data management, streamlining processes and enhancing decision-making for sustained growth.

→ Behavior Driven Development (BDD) Test Design:

QualiZeal's Behavior Driven Development practices accelerated ROI, solidified market position, and empowered Rimsys to meet customer demands, positioning them as med-tech leaders.

One of the best QA service providers. Very transparent and fully professional, and I never had to worry about the QA projects we assigned to the QualiZeal team. All of the tasks were performed on time without compromising the quality. Also, the QualiZeal management team worked closely with me in setting up the tools and QA short-term/long-term goals.

Krishna Kandala
Test Manager at Rimsys.

About

QualiZeal is North America's fastest-growing independent digital quality engineering services company. With a diverse portfolio of digital transformation services encompassing Quality Engineering, Digital Engineering, Advisory and Transformation, and Emerging Technology Testing, QualiZeal empowers organizations of all sizes globally to achieve quality excellence and sustainable market leadership. With a headcount of 750+ elite software quality engineers and trusted by 50+ global enterprises over 200+ projects across 12+ industries, QualiZeal is widely recognized for its pioneering innovation and industry-leading client and employee Net Promoter Scores (NPS).

QualiZeal has been acknowledged as the Fastest Growing Digital Quality Engineering Services Company in North America at the 2022 Global Choice Awards. We have been recognized as a Major Contender in Everest Group's Specialist and Next-Generation QE Services PEAK® Matrix 2023 reports and as a notable provider in Forrester's Continuous Automation and Testing (CAT) Services Landscape Report (Q4 2023).
